This list is prepared using the following criteria

- 1) The past seven events are used to determine a new seeding
- 2) Should a competitor achieve a seeding greater than their current seeding plus 10% for a stage, that stage will then be dropped from the calculation.
- 3) A competitor who has not participated in the last seven events will retain their last seeding achieved.
- 4) A competitor who has not entered the last 7 events will be dropped off the seeding list
